

“Hubbard-Hall helped us save 85% on our annual expense of masking materials.”

~Tru-Line MFG

Cleaning the Hard to Clean

Aquastrip

Switch to Aquastrip and you could realize savings up to \$330,000 and increase productivity by 50%. Aquastrip is used for hook and rack stripping, masking material re-use, parts re-work and remanufacturing.

Hubbard-Hall's paint stripping product line, Aquastrip, offers coatings removal for metal and non-metal substrates. We are on a mission to prove that you can make money by providing real time process improvements and cost savings.

Why Aquastrip

- Environmentally friendly
- REACH approved options
- Works with multiple substrates
- Low operating temperature
- Varied solution concentrates
- Removes paint, powder, e-coat, CARC and organic coatings

AquaStrip

Top three AquaStrip Products

- AquaStrip ACB** - Excellent for stripping masking materials for re-use & Military CARC Coatings.
- AquaStrip 1200** - Specifically designed to strip steel substrates, works well on hooks & racks.
- AquaStrip XCEL** - Works with all metals, is fast acting, free rinsing and does not contain NMP.

FEATURES	AQUASTRIP ACB	AQUASTRIP 1200	AQUASTRIP EXCEL
pH	4-7	10-12	10-12
Recommended operating temperature	140-170° F	150-200° F	150-200° F
Concentration	50-100%	50-100%	50-100%
Soak time	As required	As required	As required
Substrate(s)	All metals & masing materials	Ferrous metals	All metals

Reduce Costs with AquaStrip

Add it up and you could easily be spending \$5,000, \$50,000, or more on masking materials. Although the use of these materials is necessary, they offer little additional value to your products and are simply an expense.

AquaStrip ACB provides an easy and painless way to drive that expense right to your bottom line. After stripping with AquaStrip ACB, plugs and masking materials can be re-used as many as 6-7 times. Doing so can save a company up to 85% on the annual expense on such materials.

Reduce your masking material expenses up to:

85%

Ready To Switch?

Hubbard-Hall’s process experts can map out an affordable turnkey paint stripping system. Recommendations usually include a proper tank, filtering system, circulation, heating and baskets and, of course, our AquaStrip ACB.

Our people. Your problem solvers.

Expertise you can trust. 32% of Hubbard-Hall associates are in tech support, customer service or sales. This means that you get answers fast while the rest of our team gets your order delivered on time and in spec.
